# CHEMEON eTCP™

## Power of Protection You Can See™

CHEMEON eTCP is the first trivalent conversion coating and anodic seal with distinct color for visual verification that your parts are coated and protected.

*One look and you know your parts are protected.*

Patent pending CHEMEON eTCP delivers a distinct visual-color confirmation that your aluminum and other light metal parts are protected.

CHEMEON eTCP RTU (ready-to-use liquid)

CHEMEON eTCP Touch Up Pen

CHEMEON eTCP Concentrate

CHEMEON eTCP Powder

- One-step, superior corrosion protection and adhesion, exceeding MIL-DTL-5541 and MIL-DTL-81706 for immersion, spray, brush, and touch up pen application
- Replaces the known carcinogen hexavalent chrome and its identifiable yellow/gold hue with a violet-to-blue hue
- Provides visual verification that your parts are protected to MIL-SPEC parameters for QA/QC

**CHEMEON eTCP**  
as an Anodic Seal

Power of Protection You Can See™

# CHEMEON eTCP

Conversion Coating / Anodic Seal for Aluminum

***“One Look and you know your parts are protected”***

- ▶ CHEMEON eTCP provides an unmistakable identifying color
- ▶ Meets or exceeds MIL-DTL 81706B and MIL-DTL-5541F
- ▶ Sealed surfaces surpass the requirements of MIL-A-8625
- ▶ Superior MIL-SPEC trivalent chrome corrosion resistance/excellent paint adhesion

**Beachside Atmospheric Exposure  
testing at NASA Kennedy Space Center**
